

Extreme Soil Removal.

KAIVAC® SPRAY-AND-VAC SYSTEM

KAIVAC®

CLEAN HEAVILY SOILED AREAS

Perfect for cleaning restrooms, locker rooms, kennels, and any other hard-to-reach surface that can harbor nasty viruses and biocontamination. Instead of scrubbing and applying layers of expensive disinfectant, the Spray-and-Vac system blasts away soil and germs and completely removes all liquids and contaminants for a perfectly clean result every time.

Kaivac Spray-and-Vac is built to clean heavily soiled areas to remove dirt and bacteria completely. This versatile machine makes mops and buckets obsolete, so you never touch a mop or contaminated surfaces again. In fact, like most Kaivac systems, it's up to 60 times better at removing soil and contaminants than mopping.

Don't just clean it. Kaivac it.

FEATURES + BENEFITS

- + Kaivac invented the Spray-and-Vac cleaning category and maintains a strong lead in market adoption and product innovation.
- + Automatic chemical metering reduces chemical waste while insulating the worker from chemical exposure.
- + Leaves floors clean and dry, which means reduced slip and fall accidents and immediate availability.
- + Takes as little as one minute per fixture to clean a restroom versus the industry average of three minutes per fixture.
- + Cleaning solution always stays fresh because soiled water is vacuumed into a separate tank.
- + Certified by the National Floor Safety Institute (NFSI) for providing high traction.

KAIIVAC SPRAY-AND-VAC SYSTEM

Just apply the automatically diluted cleaning solution to fixtures, tile floors, walls, and any hard surface that needs to be deeply cleaned. Then, rinse with the 500 psi indoor pressure washer to flush out soils in grout lines and tight places that a mop could never reach. Finally, vacuum the floor completely dry for a satisfying and totally clean result in less time than mopping.

POWERFUL VACUUM MOTOR

Removes all soil and water leaving the area dry and ready for use.

SPRAY LINE WITH GUN

Long line to supply pre-mixed chemicals or fresh water rinse.

500 PSI PUMP

Apply cleaning solutions and fresh water rinsing with powerful pump pressure.

10 GALLON FRESH WATER TANK

Holds 10 gallons of water in tank. Eliminates cleaning with dirty water.

VERSATILE VACUUM WAND WITH SQUEEGEE HEAD BRUSH

Allows users to brush, clean grout and vacuum under fixtures, floors and seating.

35 FT. CRUSH-PROOF VACUUM HOSE

Cleans large areas efficiently and completely.

VAC TANK WITH DUMP HOSE

Allows quick draining of 10 gallon vacuum tank contents into a toilet or sink.

Protected by multiple US patents. Multiple patents pending.

POWERED BY

POWER CORD

Allows the user to cover extensive areas by unwrapping length of power cord as needed.

See kaiivac.com for more information and complete specifications.
