

One Machine.
Every job.

KAIVAC® 1050M

KAIVAC®

KAIVAC® 1050M CLEANING SYSTEM

TOTAL FACILITY CLEANING WITH ONE MACHINE

The Kaivac 1050M transforms facility cleaning by unifying restroom, hard floor, and carpet care into a single, streamlined system. Designed for efficiency, it eliminates the clutter and complexity of managing multiple machines, allowing facilities to achieve consistent, professional-grade results with less equipment and training.

Its innovative design integrates an indoor pressure washer and a high-performance wet/dry vacuum, rivaling the capabilities of auto scrubbers and extractors. The user-friendly interface ensures that staff can quickly master the system, reducing onboarding time and minimizing errors. By consolidating cleaning functions, the Kaivac 1050M not only saves space and labor but also delivers significant environmental benefits—reducing chemical and water use, cutting energy consumption, and lowering overall operational costs.

The Kaivac 1050M improves productivity, enhances sustainability, and creates a safer, more ergonomic work experience for custodial teams.

cleaning system

FEATURES + BENEFITS

- + Combines the best features of our No-Touch Cleaning® and floor cleaning technologies into one unit.
- + Empowers your workforce by utilizing a single, multifunctional piece of equipment and allowing them to become experts.
- + Cleans restrooms in one-third the time as traditional methods, while removing 99% of bacteria from surfaces.
- + Cleans 20,000+ sq. ft. of hard flooring and carpet per hour in push-behind mode.
- + Up to 60x more efficient in removing bacteria from floors than mopping
- + Patented Aquatic Air Scrubber filtration system integrates water as a filter, capturing and containing fine dust particles while providing consistent, high-volume vacuum lift.
- + Lithium-ion battery enables one hour of continuous runtime with an enormous cordless cleaning range.
- + Includes a 15-ft spray line, breakaway wand, 15-ft vacuum hose, and versatile accessories for high and low surfaces.
- + Easy to learn and use with the KaiNect™ app, which offers training and maintenance videos, fleet management, usage data, and more.
- + Extremely low cost of ownership, and easy to maintain and repair in-house; no service call or technician required.
- + Ideal for facilities with smaller commercial restrooms and a mix of flooring types, such as education facilities, hotels and resorts, retail, office buildings, churches, and more.

KAIVAC 1050M CLEANING SYSTEM

VACUUM WAND WITH ATTACHMENT OPTIONS

Lightweight vacuum wand with multiple attachment options and 15-ft hose allows for breakaway cleaning applications.

MIXING TUBE (NOT SHOWN)

Integrates water as a filter utilizing Aquatic Air Scrubber technology.

INDUSTRIAL-STRENGTH VACUUM MOTOR

Enables powerful vacuum lift that never loses suction.

LITHIUM-ION BATTERY

Enables one hour of continuous runtime with enormous cordless cleaning range.

10-GALLON VACUUM TANK WITH EASY- FLUSHING DUMP HOSE

Vacuum tank holds 10 gallons of recovered cleaning solution. Dump hose allows quick and ergonomic draining of vacuum tank contents.

NO-DRIP STORAGE TRAY

Convenient location to store optional vacuum wand or speed spreader.

POWERED BY

LITHIUM-ION BATTERY

Allows free and quick movement at any time of the day throughout the facility.

See [kaivac.com](https://www.kaivac.com) for more information and complete specifications.

KAINECT™ APP INTEGRATION

KaiNect offers training and maintenance videos, fleet management, usage data, and more.

SUPPLY TRAY

Convenient supply tray offers storage for tools, spray bottles, restocking supplies, and more.

500 PSI PUMP

Apply cleaning solutions in low-pressure and rinse in high-pressure mode with fresh water.

10-GALLON FRESH WATER TANK

Fresh water tank holds 10 gallons of clean, cold water for the spray system.

10-GALLON TROLLEY BUCKET WITH CONVENIENT THUMB THROTTLE

Trolley bucket holds 10 gallons of cleaning solution. Elongated spigot handle with thumb throttle allows users to control the spigot flow at their fingertips.

28" DROP-DOWN SQUEEGEE HEAD

Efficiently removes soils and solution, leaving floors clean and dry.

MICROFIBER PAD AND FRAME

For evenly spreading cleaning solution.

Save time. Save money.
